### M. Tayyab – Graphic Designer

#### A Journey Through Creativity and Growth

I am proud to call Rawalpindi my hometown, where I began my academic journey at Government Postgraduate College, Satellite Town. My passion for creativity led me to pursue a diploma in Graphic Design at Arena Multimedia, Rawalpindi, which became the stepping stone to my career in the dynamic field of creative arts.

#### Starting My Career Journey

As I reflect on my journey, I am reminded of the various experiences that have shaped me. In life, we often encounter moments of disconnect, whether by choice or circumstance. Sometimes, distance can create clarity, and in those moments, we learn the importance of understanding, forgiveness, and reconnection.

As the great poet Rumi once said, "Don't grieve. Anything you lose comes round in new form." I truly believe that the bonds we share have the power to heal and grow stronger, no matter the distance.

## Early Career and Key Milestones

I started my professional career in 2016 as a Graphic Designer, exploring my passion for visual storytelling. Over the years, I've had the privilege to work with several prestigious companies, which have played a significant role in shaping my expertise and passion for creative media.

One of my early experiences was with leading news channels in Pakistan, such as Hum TV, ARY, Capital TV, Such TV, and Mashriq TV. This experience helped me get my foot in the door of the media industry, honing my skills in broadcast design and media graphics.

Another key milestone was contributing VFX water simulations for the DingDong Bubble advertisement. This project allowed me to dive deeper into the world of VFX and develop my skills further.

As the Lead VFX Artist for Allahyar and the Legend of Markhor, the world's first Unreal Engine 4.26 based animated film, I had the honor of contributing to Pakistan's first animated film of its kind, showcasing the beauty and culture of our nation.

In addition, I have worked as a Motion Graphics Artist on various high-profile freelance projects, including collaborations with ISPR, an animated series with K&Ns, and the Clean Green Pakistan campaign.

## My Experience at Meds Nexus

In 2023, I joined Meds Nexus as a Graphic Designer, and this has been one of the most rewarding and transformative experiences of my career. Meds Nexus has provided me with numerous learning opportunities that have significantly contributed to my growth as a creative professional. The team at Meds Nexus is incredibly supportive, and the management fosters an environment that encourages collaboration, innovation, and creative expression.

One of the key highlights of my journey at Meds Nexus has been the opportunity to work alongside expert seniors and talented professionals. Their mentorship and guidance have helped me expand my skills into new areas, including video editing, animation, VFX, and broadcast design—all essential tools for modern-day communication and creativity.

The collaborative atmosphere has allowed me to continuously challenge myself and push my creative boundaries.

## Positive Initiative: MeshSQ – A Step Towards Growth

Meds Nexus is also taking a commendable step towards expanding its business in the form of MeshSQ, a new venture that will significantly impact the job market. The creation of MeshSQ will not only increase job opportunities but also help counter inflation by creating a sustainable business model that focuses on innovation, growth, and talent development. This initiative shows the company's commitment to providing valuable opportunities for skilled professionals while simultaneously contributing to the economic development of the industry.

## Looking Ahead

With over nine years of experience, I am driven to achieve new milestones in the creative industry. Graphic design and multimedia remain my passion, and I aim to continue creating work that inspires, communicates, and leaves a lasting impact.

At Meds Nexus, I am excited about the future and the endless possibilities for growth and innovation. The company's supportive environment and forward-thinking initiatives, like MeshSQ, continue to inspire me and motivate me to strive for excellence in every project I undertake.
