Invite Guest Editors: Misbah Bibi

Introduction

Hi everyone, my name is Misbah Bibi resident of beautiful Islamabad, Pakistan. I have huge respect for myself, I have completed a master's in Computer Sciences from COMSATS.

After that, I started my job career journey at MTBC, Rawalpindi in the Operations department in the Medical Billing field because I am inquisitive about what exactly Medical Billing is and what type of software our IT departments developed in the field of healthcare industry. I enjoyed every facility there for instance Medical, Lunch, Tailor Shop, Saloon, Cobbler Shop, Grocery Packages, and Transport (you know all in one package) 😊

After spending two years there and gaining experience, decided to switch to my field (IT) so I started my continued journey again as a Software Quality Assurance Intern at Stella Technology, Islamabad after the successful completion of these three months, I prearranged as a Junior Software Quality Assurance Engineer. I have been working on a US client project "Azuba Corporation" Azuba is a cloud-based national enterprise lifetime clinical records "health network and platform for all" with approximately 90%+ of all the clinical data in the USA.

Every solitary time I spent there was memorable and my team was very cooperative. My country manager Mr. Aun Raza was a great man and also our CEO Mr. Lalo Valdes, Director Mr. Salim Khizarly, and the HOD of the HR department, Miss Aqeela Naqvi, all were very cooperative with their employees at every stage.

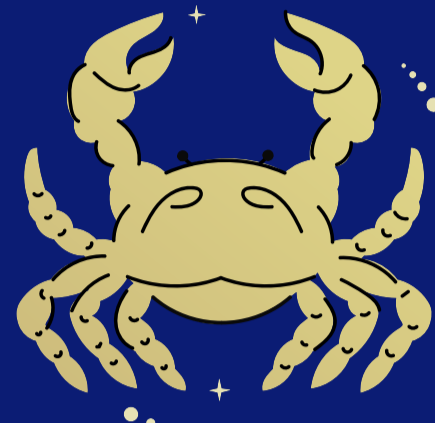

After spending 1+ year there then I joined Meds Nexus as a Software Quality Assurance Assistant and started working on our projects. It's a great pleasure to work with a great team, especially our Manager Mr. Arshad Sarfaraz, the one and individual great inspiration our Team Lead Mr. Muhammad Hanif, they both are the pillars of our IT Department, they people have great and supportive attitudes towards their team members, other team members Mr. Muhammad Afzal Shah, Mr. Nouman Siraj and Mr. Zahid Ullah, I shall be very thankful for their positive attitude and huge respect. Our company environment is good and cooperative in all aspects. I am identically glad to share my journey, and my experiences in a different culture and environments, well I enjoyed it a lot and my positive quality is adopting every culture quickly, I am self-motivating and a strong woman so I would like to suggest that keep going towards your dreams, maintain your physical and mental health that's the most important because Allah Almighty sends you for the good purpose and you're only in the whole Universe so let's keep enjoying every moment of your life.

Thank you very much!
